BURNOUT
BEATING BURNOUT AT WORK

WHAT IS BURNOUT?
Burnout results from chronic workplace stress that has not been successfully managed. It is characterized by three dimensions:

Exhaustion:
Physically, emotionally, and cognitively, described as feeling like the tank is empty.

Negative & Cynical:
Feeling negative and cynical toward work, co-workers, and others in one’s life.

Ineffective at Work:
Reduced effectiveness or ability to perform one’s work.

THE IMPACTS OF BURNOUT

All aspects of people’s lives at work, home, and socially.

Workplace productivity, performance, retention, and more.

Health and well-being because of excessive levels of stress.

Risk of developing mental health conditions like depression, anxiety, and substance use.

HOW COMMON IS BURNOUT?

77% of professionals reported experiencing burnout at work.

76% of employees reported experiencing burnout on the job at least sometimes.

88% of workers experienced some burnout, with 60% reporting high levels of burnout.

Small changes can lead to big results in reducing and preventing burnout by addressing six key workplace factors (Maslach, 2016). Here are those factors and tips for addressing them:

### Employers can also help reduce and prevent burnout by:

- **Supporting People Managers**: Remind managers about leading with empathy, scheduling regular check-ins, and encouraging open dialogue with their teams around the factors that contribute to burnout.

- **Offering Training**: Offer an interactive training with people leaders that informs them about the six (6) factors and how to effectively address them to reduce or eliminate burnout on their teams.

- **Surveying Employees**: Develop a simple survey to assess and prioritize the factors that may be impacting burnout in the workplace. Better understanding how burnout is impacting your organization is key in tackling it.

- **Developing an Action Plan**: Work with a small group of thoughtful employees to create an action plan that addresses the issues uncovered in the employee survey. Be sure to address organizational culture, as it impacts performance, productivity, retention, and more.

WHAT CAN EMPLOYEES DO TO REDUCE AND PREVENT BURNOUT?

Employees can also take steps to reduce burnout and enhance their mental health and well-being by:

- Connecting with support through an EAP, or by talking with a mental health or primary care professional.
- Taking time off and addressing sleep issues.
- Focusing on self-care by scheduling time for exercise, social connections, and joyful activity.
- Making changes that reduce or eliminate factors contributing to excessive levels of stress.

The Center provides training, consultation, and support for organizations working to prevent and reduce burnout.
